\_\_\_\_\_

Would you like Progress Photos to be sent via email or picture message? YES NO

( A progress photo is basically pictures of the painting in progress !)

**A NOTE FROM THE ARTIST**

Once your deposit is made the creative juices start flowing and I start working on your painting immediately in my mind! But wait, we have to meet 1st or speak over phone to discuss what you like. We can either meet over coffee at Starbucks or if you are busy via email or phone call. Whatever you decide is fine. WHICH PICTURES ARE BEST TO WORK FROM? High Quality! The clearer and more detailed the picture, the better your artwork will be! Make sure facial features are clear so that I can make it look as realistic as possible. Also we need to make sure the photograph that is selected is of the finest clarity to ensure accurate painting details. I need to review your selected photo , I recommend photographs that are from the waist up or close up face shots.

I am looking forward to working with you and delivering a product that you will love for the rest of your life!
